Greetings Everyone,

As we reflect on another month of purposeful progress, it fills me with great pride to see the dedication and commitment that our teams have brought to everything we do. From expanding emergency response to reaching communities through preventive care, this month has been a true testament to the strength and spirit of Zenplus Private Limited.

A significant milestone this month was the launch of Zenzo's ALS and BLS ambulances for leading organisations such as Aditya Birla Group and Morgan Stanley. These partnerships reflect the growing trust that industry leaders place in our ability to deliver reliable, high-quality emergency medical services at scale.

Building on this momentum, a truly landmark achievement came with the launch of our ALS ambulances in collaboration with Blinkit in Delhi

NCR. By making a 10-minute ambulance response possible, we have taken a meaningful step toward bringing life-saving care closer to the communities that need it most.

Prevention and wellness also remained at the heart of our efforts this month. Health checkup camps were conducted for Flipkart employees, Myntra food handlers, and several other organisations, ensuring that proactive healthcare continued to reach people directly at their workplaces.

Furthering our commitment to emergency preparedness, our teams stood ready when it mattered most, whether on the ground or in the air, demonstrating the resolve and readiness that define our mission.

Each of the milestones achieved this month, whether big or small, reflected the collective effort of our brands, Zenzo, Zenplus Fleet, and Zenplus Private Limited, and the shared commitment that continues to drive us forward. As we continue on this journey, we look ahead with purpose and pride, knowing that with our people and our shared passion for care, the best is yet to come.

Together, let us keep pushing boundaries, deepening our impact, and standing as a dependable pillar of care for every individual and organisation we serve.
