**Jitendra Sharma**

CEO

Zenplus Private Limited

Warm Greetings to All,

It is said that great outcomes are simply the sum of small efforts, repeated day after day. This month reminded us of just that. Across our teams, everyone continued to bring their best, whether on the ground, behind the scenes, or in the field. And that consistency is what allowed us to achieve some truly meaningful milestones.

One such milestone was the launch of our AHA Training Centre in Patna, Bihar. This centre was Bihar's first-ever AHA Training Centre, and it stood as a testament to our growing commitment to making life-saving skills and emergency preparedness accessible to every corner of the country.

Alongside this, Zenzo continued to strengthen its presence by deploying ALS and ACLS ambulances across leading organizations including HCL, Reliance, and Embassy Park, further reinforcing our commitment to workplace safety and rapid emergency response. We also conducted a mobile health and eye checkup camp for Solapur Police, in collaboration with the CSR project Dhanvatari and RBL Bank, bringing essential healthcare services directly to those who serve and protect our communities.

Our 102 and 108 free ambulance services, operated by Zenplus across Uttar Pradesh, Bihar, and Punjab, have continued to deliver exceptional results, providing timely and reliable medical care to pregnant women, trauma cases, and countless others in moments that matter most. Our teams on the ground continue to exemplify dedication and compassion in every response.

As we move forward, we continue to build on this momentum, reaching further, training more, and responding faster, so that we may keep delivering care where it matters most. Together, we aim to remain persistent on our mission and committed in our vision to save and empower lives across communities through innovation and care.

BUILDING PREPAREDNESS. CREATING MILESTONES

A NEW CHAPTER IN EMERGENCY CARE ZENPLUS LAUNCHES AHA TRAINING CENTRE IN PATNA

Zenplus Private Limited marked a defining moment for emergency healthcare in Bihar with the launch of its American Heart Association (AHA) Certified Training Centre in Patna. This landmark initiative brings globally recognized, life-saving education to the state for the first time, equipping both healthcare professionals and everyday responders with the skills and confidence to act decisively when it matters most.

The training centre offers a comprehensive range of AHA-certified courses, including Basic Life Support (BLS), Advanced Cardiovascular Life Support (ACLS), BLS and ACLS Instructor programs, Heartsaver First Aid CPR AED, and ACLS for Experienced Providers. Through hands-on practice training led by AHA-certified instructors, participants will gain internationally accredited certification, setting a new benchmark for emergency response training in the region.

The launch event was graced by the presence of Ms. Sweta Mangal, MD & CEO of Zenzo Healthcare and Group CEO of MUrgency, along with Mr. Rajendra, Head of Public Sector Projects, together with distinguished healthcare professionals and government representatives, all echoing the growing need for quality emergency training in the state. The overwhelming response stood as a testament to the impact of this initiative, and to our continued commitment to advancing lifesaving education across the state.

Through this initiative, we aim to empower individuals and foster a network of lifesavers dedicated to building a safer, healthier, and more prepared Bihar.

ON THE FRONTLINES OF CARE

EMERGENCY DELIVERY ASSISTED BY 108 AMBULANCE CREW

A pregnant woman from Teluram Da Bhatha went into severe labour en route to CHC Nihal Singh Wala. EMT Navkaranjeet Kumar and Pilot Jasbir Singh safely assisted the delivery inside the ambulance, with CL Pardeep Singh overseeing the response, ensuring both mother and newborn reached the hospital safely.

TIMELY AMBULANCE CARE ENSURES SAFE TRANSFER OF A CRITICAL PATIENT

Mr. Ranjeet Paswan, 62, developed severe breathing difficulty and was rushed to DMCH, Darbhanga, before being referred to PMCH, Patna. EMT Aakash Kumar and Pilot Md. Ahsan ensured his safe transfer with continuous monitoring, earning heartfelt gratitude from his family.

FIRST RESPONDER PROGRAM CONDUCTED AT TARN TARAN

A First Responder Program was held at Government Girls High School, Algon Kothi, Tarn Taran. FRP Trainer Jaswinder Singh and CL Jagmeet Singh led the session, training students and staff on responding during the critical golden hour. Over 50 participants attended and appreciated this initiative by Zenplus.

ALS AMBULANCE ENSURES SAFE TRANSFER OF CRITICAL HEAD INJURY PATIENT

Banshilal, 46, suffered a head injury and ENT bleeding after a physical assault. EMT Anoop Kumar Verma and Pilot Premnath provided continuous care and safely transported him from MRA Medical College to the Neurosurgery Department at KGMU Trauma Centre, Lucknow.

NEW PARTNERSHIPS. NEWER DEPLOYMENTS.

ZENZO STRENGTHENS EMERGENCY READINESS AT HCL HYDERABAD

Zenzo launched a brand-new ALS Ambulance at HCL Hyderabad, equipped with advanced life support technology and a trained medical team. With this deployment, we aim to strengthen the organization's emergency preparedness, ensuring faster and more reliable response whenever a critical moment arises.

ZENZO DEPLOYS ALS AMBULANCE AT RELIANCE INDUSTRIES - HAZIRA

Zenzo has boosted on-site emergency readiness at Reliance Industries Limited, Hazira, with the deployment of a fully equipped ALS Ambulance and a dedicated medical team, available around the clock. This initiative reinforces the belief that a prepared workplace is a safer one, ensuring critical care is always within reach whenever it's needed most.

ZENZO BRINGS ON-SITE EMERGENCY SUPPORT TO DEEPAK FERTILIZERS

Zenzo has officially deployed an Advanced Life Support Ambulance at Deepak Fertilizers, Gopalpur, providing round-the-clock emergency medical support for their workforce. This deployment reflects a growing recognition across industries that on-site emergency care is no longer optional, but essential to workplace safety.

ZENZO STRENGTHENS JAIPUR-AGRA NHAI CORRIDOR WITH ACLS AMBULANCE DEPLOYMENT

Zenzo has deployed 2 ACLS Ambulances on the Jaipur-Agra NHAI Corridor as part of Highway Emergencies 1033, addressing the critical gap in emergency response along India's highways. Backed by a team of 18 trained professionals, including paramedics, EMTs, and relief staff, the service operates 24/7, ensuring help is never too far away when every second counts.

DELIVERING CARE BEYOND BOUNDARIES

ZENZO COMPLETES A CRITICAL TRAIN AMBULANCE TRANSFER

Zenzo successfully completed a 38-hour Train Ambulance transfer for a 76-year-old male patient diagnosed with CA Colon and Liver Metastasis, travelling over 2,100 km from Ernakulam, Kerala to Kolkata, West Bengal. A Doctor and Paramedic remained on board throughout the journey, closely monitoring vital signs and managing medication at every stage.

For Zenzo, transporting a critically ill patient is never just a logistics challenge, it's a responsibility. This transfer reflects our belief that critical care doesn't pause at the station, it travels with the patient, every hour of the way.

ZENZO COORDINATES EMERGENCY AIRLIFT FROM SAGAR TO DELHI

A young patient with severe burns and in critical condition needed advanced care over 700 km away in Delhi, ruling out ground transfer as an option. Zenzo activated an airlift from Sagar, Madhya Pradesh, with a medical team and equipment on board, coordinating every detail in real time.

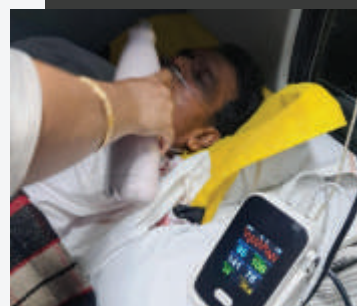

Hours later, the patient reached Delhi safely, receiving the care and precision needed every step of the way, a reminder that no distance is too far when a life is on the line. This is Zenzo's promise, in action.

ZENZO TRAIN AMBULANCE COVERS 2,000 KM FOR CRITICAL PATIENT TRANSFER

Zenzo completed a 2,000 km Train Ambulance transfer for a Stage IV cancer patient with lower body paralysis and on oxygen support, from Holy Spirit Hospital, Mumbai to Rainbow Hospital, Kolkata.

Throughout the journey, the patient received continuous care and monitoring, ensuring no mile went unattended. Because a life in transit is still a life that deserves the very best, Zenzo remained committed to delivering uncompromising care, every step of the way.

BRINGING HEALTHCARE CLOSER TO COMMUNITIES

ZENZO DEPLOYS MOBILE MEDICAL UNIT IN PARTNERSHIP WITH JINDAL STEEL - BOKARO

Zenzo has deployed a fully equipped Mobile Medical Unit (MMU) in partnership with Jindal Steel, serving communities around Dugda Coal Washery, Bokaro, Jharkhand. The MMU will deliver primary healthcare, medical consultations, and emergency support to rural and underserved areas, ensuring that distance is never a barrier to essential care.

Notably, Jindal Steel began this community welfare initiative even before officially taking over operations at the washery, a reflection of their commitment to people beyond business. For Zenzo, this deployment marks another step toward a shared belief: healthcare should reach everyone, everywhere.

ZENZO CONDUCTS HEALTH & EYE CHECKUP CAMP FOR SOLAPUR CITY POLICE

As part of RBL Bank's Project Dhanvantari, Zenzo conducted a 2-day Health & Eye Checkup Camp for the Solapur City Police, offering free health screenings and eye checkups for the force. The camp aimed to prioritize the health and well-being of those who serve on the front-lines, often putting the safety of others before their own.

Because real care means showing up for those who always show up for others, Zenzo was proud to check up on those who protect us, 24/7. It was a small gesture of gratitude for those who dedicate their lives to keeping others safe, and a reminder that their well-being matters too.

ZENZO ACLS AMBULANCE NOW LIVE AT EMBASSY PARK - NOIDA

Zenzo has deployed a fully equipped ACLS Ambulance at Embassy Park, Noida. It brings Advanced Cardiac Life Support directly to the community. Trained paramedics remain on standby round the clock.

Because in an emergency, every second counts. Zenzo remains committed to being present right where it's needed. Critical care is now closer than ever for the Embassy Park community. This deployment marks another step in our mission to make emergency care accessible everywhere.
